SCDXC Newsletter

The Southern California DX Club is a group of dedicated men and women active in the amateur radio community who enjoy communicating over the air with other radio amateurs around the world.

The SCDXC strongly supports the DX Code of Conduct. Please visit their website:

www.dx-code.org

The SCDXC newsletter is published monthly and released to club members around the first of each month. Amateur and DX related letters, news and pictures are welcome and will be published as time and space permit.

Articles may be republished with recognition of the author and the club. Reuse of copy-righted materials require the original author's permission.

Any questions regarding this newsletter or its articles should be addressed to the Editor, Bill, N6RV at:

n6rv@scdxc.org

Club meetings are held on the second Thursday of the month at 7:30 PM except April, June and December.

Please check the club web site for events and details at: http://www.scdxc.org
If you are in the area please say

W6AM/R 145.48, (-) PL 100.0

hello on our repeater:

In our January 2017 issue... HAPPY NEW YEAR!!!!

Effective 12/30/2016 SCDXC Callsign is K6DXC

From the Desk of the President Doug Dowds, W6HB

QST de W6HB:

Welcome to 2017 and the SCDXC's 70th year. Be prepared for some possible special events to commemorate same.

This month's speaker is Gurbux Singh, W6BUX, who will speak on amateur radio and life in Burma where he is originally from. Taking life in the USA for granted might take on a whole new picture after hearing from one who as an immigrant has lived and survived both sides. If you like seeing the classic radios many have never had the pleasure to operate be prepared to name the rigs he will show in various photographs.

If you have any programs you would us to pursue or events you would like to pitch, please let Mel, K6SY, and I know your thoughts. As we should have been issued K6DXC (K6 D X Club) by the time this newsletter goes to press, I will be pitching an anniversary operating event probably for the month of August. Look for more later after the BOD has an opportunity to discuss same. And by the way, yes we are still working toward possibly acquiring W6AQ in memoriam of long time member Dave Bell.

The NCDXC has started taking reservations for the IDXC. Make sure you jump on the band wagon if you have not already done so by navigating to dxconvention.com. Be prepared to see a few things being done differently with the prizes per scuttlebutt along with the longer venue. I expect to be there prior to heading back to E5/S on April 29 to play as E51DLD again.

See at the dinner and meeting on January 12th....

73 - Doug - W6HB

December Calendar

Jan. 12 General Club Meeting

Jan. 14 NAQP CW Jan. 21 NAQP SSB

Jan. 27 CQ 160m CW Contest

For more contest Info see: http://www.hornucopia.com/contestcal/contestcal.html

Vice President's Corner Mel Hughes, K6SY

While it has been a pleasure and a privilege serving as the SCDXC Membership Chairman for the past ten years it's time to step aside. Beginning in January your new Membership Chairman will be Linda Sounder, W6QE. And since about 40 % of our members haven't yet renewed for 2017 she'll be busy tracking them down.

Some have claimed a UA hacked our server altering the election outcome, but unless the election vote recount overturns the original results, beginning in January I will be moving into my new role as Vice President of the SCDXC. As traditions seem to dictate, I will be responsible for providing programs and raffle prizes. So I need your help and input!

What would you like for programs? Yearly auction? Show and tell from our members? Victoria Secret Fashion show? DXpeditions? Technical Presentations? What about raffle prizes? Tools? An Afternoon at the Ballet? Computer supplies? Wine? HRO, Jung's, Lowe's Home Depot, etc gift cards? Arthur Murphy dance lessons? What? Please, please E-mail me at K6SY@aol.com, or call me on the repeater, W6AM, or phone, 1-310-753-5856, and give me your ideas, suggestions, requests.

On a personal level I finally have my stations back together and almost everything working. I still need a bit of antenna work both at home and at the station at WEMS. If you listen to the Club repeater you will notice the voice announced DX spots are back. With the help of one of our members, Bill Shell, N6WS, the announcement software is now running on a Raspberry Pi computer (the size of a pack of cigarettes) using a Linux operating system, as do both W6ZZ and K6SY packet nodes (Linux is super reliable and free). The voice announcements are filtered so there are only announcements posted by stations located within QC zones 3 and 31.

In keeping with New Year's traditions I have made the following resolutions:

Learn how to properly operate my new Flex 6500 and 2K-FA amplifier so I can keep resolution 2.

Participate in at least 4 contests this year, with one RTTY and one 160 Meter

Work a SV5 that will QSL either "direct" or via LoTW. To date I've found three that don't QSL.

Keep the shack clean and neat (actually, this is a mandate from Doris)

Get at least one of my 4 grandchildren to get a Ham ticket. (Our daughter finally was licensed this year and is now K6DAH).

Begin transferring the SCDXC paper and photo archives to digital formats (pdf and jpg) before they become unreadable and no longer viewable.

Have a wonderful New Year but don't bother looking for me on January 2. We'll be in the Rose Bowl cheering for SC. See you at the January 12, 2017 SCDXC meeting.

73 and Fight ON! Mel – K6SY SCDXC VP

Rumors on the Band

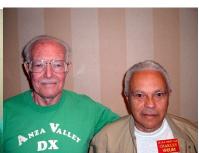

January is starting the year slowly. We do have a few really good opportunities. In particular is the UK Sovereign Base area, ZC4SB. This entity is very rarely active and should yield some large pile ups Since we have a little extra room we would like to comment about 30 meters. There is a long path opening over South America into South East Asia that starts as early as 3 PM local and extends a little past sunset. Basically about an hour and half before sunset. It is stable and 9V, XW, XU, JA and HS are heard during this time. Furthermore 30m plays like 20m towards Africa in the late morning to early afternoon hours. Keep and ear out!

Seymour, W6CCP SK

By now most have heard that Dr. Seymour Lesonsky passed away early last month. Seymour was a beacon on 20 meters as well as other bands. His voice was deep, that of a large robust man. It did not match his physical stature but it did match his love for the hobby. Seymour had a great station in Anza just a few miles from W6BH, Lee Shaklee's station in the mountains, now owned by John, WA6TQT. Seymour experimented with all types of antennas. I recall hearing him working station barely detectable at my QTH. He was always loud and had a worldwide community of friends. It was a joy to listen to the gang rag chewing with stations from the Middle East and other reaches. He often attended the DX Convention at Visalia and reminisced with his friends and newcomers. We have lost another great one.

Rest in Peace Seymour

DX Standings

Here are the updated standings. So far no one has emailed any changes. All changes were taken from Club Log.

I will go through the ARRL standings and update everyone. This will happen every 6 months or so. If you have updates to your standings that are not already in ClubLog or on the ARRL website we are more than happy to modify the lists please email us at the address below with your new standings!

N6RV@SCDXC.org

SCDXC WAZ and DXCC Standings

The first WAZ column is the confirmed zone count on 10 bands 160 - 6 (less 60 meters). The second column is the regular 5BWAZ confirmed count. The following are the codes that follow the two columns and indicate the awards:

M Mixed
P Phone
C CW
R RTTY
5 5 Band

The first DXCC column is the confirmed entity count with deleted countries. The second column is the confirmed current entity count. The third column is the challenge slots.

The members highlighted in Red are at the top of the Honor Roll. Those in Blue are on the Honor Roll

As expected conditions deteriorated as we approached winter solstice and the holiday inactivity does not help.

John, N6QQ, has slipped to #13 in North America and Bill, N6WS has overcome him at #12. The only stat that separates them is the number of slots (1191 vs. 1138). John does not have 160m or 80m antennas at the moment. We are ahead of last years total worked. Don't expect it next year!

Several members added a few more entities however as mentioned above activity has fallen. At the moment we are expecting ZS8 and JD1/m so there may still be some movement. No one has ZS8 and only 6 members have JD1/m so we could see 283 total and Bill, N6WS, could overtake John at 267. Of course the promised operations have to get on the air!

The top ClubLog members picked up one entity however we worked 2 more closing the gap from 11 to 10. We still worked 3 entities that the top didn't, 4U1UN, VK0/M, and VU4. All of these were uniquely reported by one member. The top ClubLog ops reported losing one unique entity, E5/N. E51WL has been worked by many on JT-65. That leaves 3B7, J2, TJ, VP8/O, and ZS8 among the remaining unique entities. Again the unique entities have not been confirmed as active.

Notice that the worked chart has been updated. Next month when we start all over all the entities not worked this year as well as the rare ones we worked this year (VK0H, VP8H, & VP8S) will be among the ones in red..

At the January meeting the winner will be announced so please make sure you have all the updates in by year end. Also in February there will be an article with the statistics on all the DX worked for the year based on ClubLog so please keep your standings fresh!

Get Schroeder Award Standings are calculated by your entries in Club Log.

To learn how to use club log and enter your countries see http://www.scdxc.org/dx-standings.html

DX The Year in Review

Another year has come to a close. Another year of opportunity and accomplishment is now relegated to the past and never can be recovered. Fortunately a new year is upon us and the opportunities in the DX arena abound. Actually this article was written with a few days left in the year and even so there are dozens of DXpeditions and operations to fill the year end. Looking at the SCDXC accomplishments this year is pretty impressive. We kept up with the pack only missing a few entities active this year. Talking about what was on this year we had some great ones! There were 586 announced operations from 180 entities not to mention the many entities with the one ham who is always active. Below is a list of the operations by month. Note the very rare operations (Red) and the fairly rare ones (Blue). For a year on the backside of the cycle it seems as if the activity is holding up fairly well. Remember that when the numbers are low the low bands are better! Also follow the grey line. In December and January there are lots of surprises on 40m and 30m in the afternoon! Remember CW is much more effective! Maybe it is time to learn the code or dust off that key and reacquaint yourself with the superior mode and do not forget the digital modes!

To the right is the listing of all the ClubLog registered 2016 DXpeditions ordered by number of QSOs. This is a good measure of the size and aggressiveness of the operation. Note that the third and fourth positions are occupied by two major operations from remote locations. In fact the top 10 achieved over 75,000 QSOs each and at least half of them were very rare.

Now this does not imply that the other operations were not serious. In fact, many of them were very serious efforts made by a smaller group with a specific focus (e.g. CW only, low band only etc.). We also have to take into account the duration of the activity and the conditions both propagation and physical. Scanning the list we see D6, XU, VK9, VP8/S, VP8/G, 8Q, S7, EP, & Z8. All of these were major operations that made at least 50,000 QSOs. In the whole list are many operations that filled thousands of slots including All Time New Ones (ATNOs).

Among the group are several one man operations. VU7MS, a two man operation, brought joy to thousands of Dxers. It is always fun to grab a radio and a few wires then make the best of it when you are visiting some exotic location. Furthermore we are fortunate to have hams who live near a rare location that, with minimal cost, can take a short trip with sufficient equipment and activate an entity normally not seen active for years! We appreciate their effort as they fill in the empty spaces. Even visiting foreign hams and operating from their stations has its merits. Ask Doug, W6HB. Of course you may be drafted for some tower and antenna work and repairs while there!

SCDXC worked 282 entities while the ClubLog Top 10 worked 289. SCDXC members worked 3 unique entities meaning the top 10 worked 11 entities that we did not. That brings the total number of entities worked to 292 (provided that all contacts were accurately reported and no operator outside the top worldwide worked an entity they did not.). ZS8, Marion Island should be after this we publish but before the end of the year. That brings the ClubLog total to 290. If you are planning a DX operation maybe a trip to one of the 2016 not worked entities would be intriguing. Sadly most of them are restricted or isolated entities. The one that stands out is HC8, The Galapagos Islands were not active this year! If someone has some pull a neat island hop would be KH1, KH2, KH3, KH7 KH8S & KH8. It would be nice if the Department of the interior would grant a group an annual pass. Finally one entity that is in our backyard and probably could be activated with some help from friends to the south is Revilla Gigedo, XF4. It seems an operation from there is not too much of a stretch. How about during the CQWW DX SSB & CW. They are only a month apart! With the geopolitical world changing maybe some of these restricted entities will show up. What was sorely missed this year was the P5 operation planned for the end of this year. Perhaps it will happen in the Spring!

····at mac	· ·	•	Tor the one or the year. I emape it will happen in		Ū

We had some once in a lifetime DXpeditions this year.... OK maybe twice or three times in a lifetime DXpeditions. The year started of with the combined VP8STI / VP8SGI Dxpedition that was monumentally successful. The team activated South Sandwich and South Georgia Islands. Both were high on the most wanted list. If you did not work them then you need to turn your radio on. A few locals worked them from their mobile station! VP8SGI netted 82,847 QSOs filling over 3,000 ATNOs and over 18,000 new band / mode slots. VP8STI similarly did well with almost 55,000 QSOs filling over 5,000 ATNOs and over 21,000 new band / mode slots. The numbers on the low bands were impressive. Recall that even 10 meters was still up and running at the beginning of the year. We won't see that again for a few years!

March brought us two great DXpeditions! Juan De Nova was activated early in the month and they were prolific. The ferocity they exhibited was world class, checking off new ones for many ops world wide. They totaled over 105,000 QSOs with 26,000 unique calls! Again FT4JA doled out over 5,000 ATNOs and filled 34,500 new band / mode slots.

Almost concurrent with that Dxpedition the Heard Island boys arrived! Even though Big Ben, the island volcano, blocked the path to the West Coast and the team discovered the second operating site would endanger life and limb, the operation was easy pickins for us! Thanks again to Bob and team for really putting in the monumental effort required to put VK0EK on the air. The team netted over 75,000 QSOs from one of the toughest locations to work and get to in the world. The path to the major population centers that are all in the Northern Hemisphere are the longest from anywhere. Again due to their persistence and the cooperation of the DX community the team doled out over 4,000 ATNOs and 22,000 new band / mode slots. Congratulations! It is important to note that as soon as the MV Braveheart finished the VP8 Dxpedition they were off to pick up the Heard Group. A special thanks to the captain and crew. They have earned their Braveheart title!

Not to diminish the efforts of the many other DXpeditions, far too many to cover in the allotted column, there is one other that has to be mentioned which stood out as very significant. D66D, the Comoros Island Dxpedition in September is one for the books. Their presence on the bands could not go unnoticed and again it is another tough path! The group netted nearly 43,000 QSOs and doled out 1200 ATNOs plus 8400 new band / mode slots. Considering the low solar activity this Fall this effort and all the Fall efforts are noteworthy.

Another pleasant surprise were the VP6, Pitcairn Island operations. The island has been radio silent for years. For West Coasters it is a chip shot however you have to point your antenna due south! The operation VP6AH lasted for almost 3 months and found many glad Dxers! Thanks to Uli, DL2AH.

Then there was the KC0W "Cows Over the World Dxpedition". During 7 months Tom made an aggregate of over 100,000 QSOs from ZD7, XU, T30, HH, YJ, FM, 4O, 5W, KH8, VE, T2 and was planning to operate from 3D2, H44, S2 and others when everything but the shirt on his back was stolen in Kiribati. This is one of the epic one man DXpeditions ever, along the lines of Gus Browning, W4BPD, in the 50s and 60s. Tom has recovered his zeal and is heading out again. His QRZ.com site says he just finished a stint in Montenegro, 4O and in January he is ramping up for Equatorial Guinea, 3C and Annonbon Island, 3C0. You have to love his energy!

There were so many great DXpeditions this year that we fear one might not be mentioned. Almost weekly some group was on going hard at it. It will be pretty mundane when all this activity dies down. Hopefully the current population of operators whose lifelong dream was to go on DXpedition will be replenished by new retirees and energetic youngsters!

The most exciting contacts were on the odd paths, the ones that are neither long or short path but in some odd direction. In fact this fall 30m and 40m have been exhibiting good openings to the Indian Ocean pointing over South America. Even Laos and Cambodia have been worked over that path. It is really strange to hear an LU or PY a few KHz above an XU, XW, 4S, 8Q or even the VK6 that often frequent this path to the West Coast. Because the Indian Ocean, particularly the Southern Indian Ocean, is near our antipode signals can pop up in any direction. Often turning the antenna almost 180 degrees results in no appreciable change in signal level. 30 meters has shown itself to be productive not only at night but in daylight. Africa and Asia have been worked throughout the afternoon. Many of the morning openings extend to the whole day.

It should be noted that the upcoming years will be a boon for 20 meters and above. If you do not have an effective antenna on 160m -30m then make plans to get one or several. Those who have one of the SteppIR DB series with the dipole for 80 are surely at an advantage over the usual wire stations. Reviewing the membership there are few if any members left in the big station category. What has offset the disadvantaged is the antennas now employed by many DX stations. Quite a few are doing the heavy lifting for both sides giving access to even the most modest station.

2017 operations are stacking up on the NG3K announced DXpedition website. 8Q, Maldives, A7, Qatar, J5 Guinea Bissau, TU, Ivory Coast and ZC4 Cyprus SBA are set to go this month. In the following months operations from TL, XX, FO/A, and KH1 are already in the mix. It may develop into another pretty great year for DXing. It has to be said time and again. The easiest mode to work DX is CW. Timing is everything and a good band scope nowadays is indispensible. Until next year... Keep on DXing!

We are proud to have the Amateur Radio Council of Arizona (ARCA) as a sponsor of our event.

The Yuma Hamfest is an American Radio Relay League (ARRL) sanctioned event.

Hams on a Ship!

Come join the fun on a Caribbean Cruise

Enjoy sailing 11 days visiting St. Maarten, Guadeloupe, Barbados, Martinique, St Kitts & Nevis, St Thomas and the Bahamas before returning back to Ft Lauderdale.

Be part of the group functions, enjoy a complimentary Pinnacle Grill dinner and the comradery.

Rates start at \$1444* per person including tax and may be combinable with current promotions.

Call WHITE TRAVEL for the best possible rate.

SPECIAL BONUS ON-BOARD CREDIT BOOKING INCENTIVE

Book with WHITE TRAVEL (Monday to Friday) between January 30 and February 10, 2017
Inside staterooms will receive \$35 on-board credits**
Outside Stateroom will receive \$50 on-board credits
Veranda staterooms will receive \$75 on-board credits

Contact White Travel for all the details
Phone: 800-547-4790 / Email: info@whitetravel.com

*Rate is based on an inside Category J, double occupancy at the time of printing. Lower categories and/or a lower rate may be available at the time of booking. All rates and accommodations are based on availability ** Credits are per stateroom

Propagation

The SFI has not been above 85 since mid October and has been below 80 for almost a month with the maximum number of sunspots at 25 for the same period. With the exception of one little bump the SFI is flat line, however the lower bands have produced some goo DX

Looking on the bright side, the peak, if you want to call it that, was approximately August of 2013. The SFI rose above 100 in June 2011 so if all things remain equal we will see the next cycle break 100 in early 2022 and peak in mid 2024. Well ... some of us will see it. The falling edge of our demographic will be in their 70s... Oh... you are already there? Well the news reported yesterday that Russia is working feverishly on a youth pill which will extend life to 130 and beyond. Maybe we are good for a few more cycles if we can still operate a radio! Make hay while the sun is shinning!

Heading towards the minimum does not mean there is no DX! If you missed last months frolic know that as many as 133 entities could have been worked from the West Coast. Looking at the Club Log stats ,with the exception of the higher bands, this year is exceeding last year for DX entities. Maybe we should be sitting in front of the radio rather than in front of the boob tube!
